

Model CS24, CS30, CS36

Manufacturer	Steam Sauna, Inc.		
Service	Residential Steam Generator		
Operating Pressure	Atmospheric		
Model	CS24	CS30	CS36
Output	24.0 KW	30.0 KW	36.0 KW
Amps	100/67	125/83	150/100
Electrical	240 / 208 Volts		
Dimensions	20"L x 9"W x 18"H (models R) / 24"L x 9"W x 18"H (models AF & MF)		
	R: Regular (no drain), AF: Automatic Flush, MF: Manual Flush		
Water Feed	1/4" copper tube		
Electronic Control Module	Contains a P.C. board that controls the heating unit, water level and flush drain using a specific application, factory preset microprocessor with 90 min auto shut off safety feature		
Elements	Low density industrial incoloy heating elements		
Operational Supply Valve	one- 1/4" c/w compression connector for 1/4" tube		
Auto Flush Valve	one - 3/4" c/w compression connector for 3/4" copper pipe		
Steam Outlet Pipe	two - 3/4" c/w compression connector for 3/4" copper pipe		
Safety Relief Valve	10 PSI or less
